

1:30-1:50

*Welcome*

Gregory J Block, MSc PhD  
Board Member, Board of Directors  
Friends of FSH research

Jeff Chamberlain, PhD  
Director, Wellstone Center  
Professor of Neurology, Medicine, and Biochemistry  
McCaw Endowed Chair in Muscular Dystrophy  
University of Washington

1:50-2:20

*Mechanisms and biomarkers for FSHD*

Amy Campbell, PhD  
Staff scientist, Fred Hutchinson Cancer Research Center

*Epigenetics in FSHD*

Premi Haynes, PhD  
Staff scientist, University of Washington

2:30-3:00

*MRI biomarkers in FSHD*

Dennis Shaw, MD  
Division Chief, Magnetic Resonance Imaging  
Seattle Children's Hospital  
Professor of Radiology  
University of Washington

*Functional biomarkers in FSHD*

Leo H Wang, MD PhD  
Associate Professor of Neurology  
University of Washington

3:00-3:15

*Fulcrum Therapeutics: On the Path to Clinical Trials in FSHD*

Michelle Mellion, MD  
Medical Director  
Fulcrum Therapeutics

~3:15

*Round table*

What can we learn from other diseases that applies to getting a FSHD clinical trial going?
